## Overview

---

Teresa provides ongoing advice to clients who sell regulated products in the food, pharmaceutical, biotechnology and medical device industries.

She advises on intellectual property and regulatory issues in the chemical, biochemical and pharmaceutical fields, including the validity patentability and infringement of intellectual property rights. Teresa has extensive experience with drafting, filing and prosecuting patent applications and is frequently involved in drafting and negotiating IP licensing, research and development, co-promotion, marketing and confidentiality agreements for her clients.

She provides guidance on *Food and Drugs Act* compliance, establishment licensing, product licensing, packaging and labeling, drug pricing and formulary listings. She has deep knowledge in the advertising and promotion of consumer products, food and health products, as well as mandatory reporting and corrective actions. Teresa also provides insights into the impact of technological changes, such as the development and utilization of artificial intelligence, on the life sciences industry.

Her work regularly includes advising clients across industries on privacy issues, cross-border transfer of personal information and compliance with privacy law obligations, particularly involving personal health information.

Teresa is a registered patent agent in Canada. In September 2009, she was awarded for having achieved the highest overall mark in Canada on the 2008 patent agent exams.

“

She is smart, keyed into the complicated regulatory landscape in Canada and super practical. There is a lot of grey in this space in Canada and she brings real expertise and knowledge there.

—CHAMBERS CANADA, 2024

# Professional Involvement

---

Teresa worked with the LSUC on an e-Course titled “Privacy Law Basic for Business Lawyers,” which explains the privacy law obligations of a corporation in three situations: on an ongoing basis, in the course of a transaction and upon a privacy breach. It provides a foundation in privacy law for business lawyers of all experience levels.

Teresa is a member of the Toronto Intellectual Property Group, the Intellectual Property Institute of Canada (and of the EDI and CPD Committees of IPIC), Intellectual Property Owners Association (and member of the IPO Canadian Practice and Pharmaceutical & Biotechnology Issues Committees) and the American Intellectual Property Law Association. She is also a member of the Food and Drug Law Institute (FDLI, and member of Medical Products Committee) and is a frequent presenter at these events.

Before joining Torys, Teresa was a research associate at the Samuel Lunenfeld Research Institute in Toronto.
